PUSHBUTTON STATIONS

art

Beyond its wide range of standard products ELECTROMETAL also supplies personalised operating panels, designed and realised according to special customers' request in order to emphasize the design of the elevator. These panels are available in stainless steel (scotch-brite, mirror, coloured, decorated, brass) and we can assembly any kind of button or accessory. Our high-edge cutting technology and our specialized staff are at your disposal to evaluate and develop not panels, but art.
